

The logo consists of a central globe showing the Asian continent in green and blue. Surrounding the globe is a molecular structure with white spheres at the vertices of a hexagon, blue spheres at the midpoints of the sides, and a red sphere at the center. The word "ASIAN" is written in grey, uppercase letters along the top arc of the hexagon, and "CONFERENCE" is written along the bottom arc. The word "CHEMISTRY" is written along the left arc, and "COORDINATION" is written along the right arc. The letters "A", "C", "C", and "C" are placed at the top, left, right, and bottom vertices of the hexagon, respectively, in a large red font.

**Asian
Conference on
Coordination Chemistry**

The Aims of the ACCC are:

- To develop coordination chemistry in Asian countries and regions.
- To promote collaboration among Asian countries and regions in coordination chemistry.
- To encourage young and female coordination chemists in Asian countries and regions.
- To activate the coordination chemistry of host countries and regions
